
TITLE 329 SOLID WASTE MANAGEMENT BOARD

SECOND NOTICE OF COMMENT PERIOD

LSA Document #06-70

**DEVELOPMENT OF AMENDMENTS TO RULES CONCERNING SOLID WASTE PROCESSING FACILITIES
AT [329 IAC 11](#)**

PURPOSE OF NOTICE

The Indiana Department of Environmental Management (IDEM) has developed draft rule language for amendments to [329 IAC 11](#) concerning clarifications, consistency changes, and organizational changes to the rules for solid waste processing facilities, including transfer stations. By this notice, IDEM is soliciting public comment on the draft rule language. IDEM seeks comment on the affected citations listed and any other provisions of Title 329 that may be affected by this rulemaking.

HISTORY

First Notice of Comment Period: April 1, 2006, Indiana Register (29 IR 2377).

CITATIONS AFFECTED: [329 IAC 11](#).

AUTHORITY: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#).

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING

The rulemaking proposes to clarify existing rule language for definitions, exclusions, zoning requirements, application and design standards, operating standards, closure, and post-closure requirements. This rule will also make [329 IAC 11](#) consistent with the standards in [329 IAC 10](#) and other processing requirements. Reorganization of [329 IAC 11](#) will make the rule easier to follow.

Basic Purpose and Background

The existing transfer station rule has not undergone significant revision since the early 1990s. The objectives of this rulemaking are to revise the transfer station rule and to generally make the language of [329 IAC 11](#) more clear, to maintain consistency with relevant statutes and other solid waste rules, and to improve the organization of the rule to allow for easier location of pertinent requirements.

[IC 13-14-9-4](#) Identification of Restrictions and Requirements Not Imposed under Federal Law

The following element or elements of the draft rule impose or imposes either a restriction or a requirement on persons to whom the draft rule applies that is "not imposed under federal law" (NIFL elements).

NIFL Element (A) Definition of major/minor modification.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (B) Exclusion of transfer and storage of enclosed (not opened) containers with solid waste other than municipal solid waste.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This rule will relax the current requirements.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to

specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (C) Modification to zoning requirements.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (D) Expiration of permit if construction of the facility is not begun within a reasonable time frame.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is a further implementation of policy established under Indiana law for landfills.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (E) Information submitted on a plot plan at [329 IAC 11-9-2\(h\)](#).

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (F) Requirements for the facility to be in an enclosed building with lockable doors. Some facilities will be grandfathered in.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **This will make the rule consistent with permits issued to solid waste processing facilities. This requirement will be protective of human health and the environment by containing the solid waste within a building.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement as this is already required for new facilities.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the**

requirements for solid waste disposal facilities.

NIFL Element (G) Waste processing and storage area to be constructed with an impermeable surface for the floor.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **This will make the rule more protective of human health and the environment and make the rule consistent with permits that are issued to new facilities.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (H) Liquid waste and wastewater holding areas to be equipped with secondary containment or spill preventing procedures, or both.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **This will make the rule more protective of human health and the environment and make the rule consistent with permits that are issued to new facilities.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (I) Information required on the facility sign.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (J) Floor cleaning in the loading areas so waste and waste residues are contained.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **This rule change will allow the permittee more options to meet the requirements for sanitary conditions at the facility.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (K) Emergency or contingency procedures for spill, fire, and contaminant release.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **This is a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (L) Closure and post-closure standards.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **The rule will incorporate requirements from Indiana statute and extend the requirements to all solid processing facilities that are currently required of Indiana transfer stations under [329 IAC 11-16-2](#).**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (M) Adding definitions to be consistent with [329 IAC 10](#).

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **This rule change will make the rule consistent with the solid waste landfill rule at [329 IAC 10](#).**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (N) Adding application procedures at [329 IAC 11-9-1\(c\)](#) for consistency.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (O) Establish financial assurance with the preoperation requirements.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to

which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule, as financial assurance is already required in the current rule. This provision merely clarifies that the actual financial assurance instrument must be provided at the preoperational step of the process.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

NIFL Element (P) Merging the requirements and reorganizing various sections.

(1) Describe the environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana and describe examples in which federal law is inadequate to provide this protection for Indiana. **There are no environmental circumstances or hazards dictating this requirement. This is merely a clarification of the rule.**

(2) Describe the estimated fiscal impact and expected benefits of the NIFL element based on the extent to which the NIFL element exceeds the requirements of federal law. **There is no fiscal impact of this requirement. The benefit is a clarification of the rule.**

(3) Describe all materials relied on by IDEM in the development of the NIFL element including, if applicable, health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data. Be sure to specifically mention and address each type of material. **The only material relied on was [329 IAC 10](#), the requirements for solid waste disposal facilities.**

Potential Fiscal Impact

There is minimal fiscal impact associated with this rulemaking. This rulemaking does not impose any additional requirements but clarifies, makes consistent, and improves the organization of the existing rule. However, comments on the potential fiscal impact of the rule are requested.

Public Participation and Workgroup Information

No workgroup is planned for the rulemaking. If you feel that a workgroup or other informal discussion on the rule is appropriate, please contact Lynn West, Rules, Planning and Outreach Section, Office of Land Quality at (317) 232-3593 or (800) 451-6021 (in Indiana).

SUMMARY/RESPONSE TO COMMENTS FROM THE FIRST COMMENT PERIOD

IDEM requested public comment from April 1, 2006, through May 1, 2006, on alternative ways to achieve the purpose of the rule and suggestions for the development of draft rule language. IDEM received no comments in response to the First Notice of Comment Period.

REQUEST FOR PUBLIC COMMENTS

This notice requests the submission of comments on the draft rule language, including suggestions for specific revisions to language to be contained in the draft rule. Mailed comments should be addressed to:

DRAFT RULE

SECTION 1. [329 IAC 11-1-3](#) IS AMENDED TO READ AS FOLLOWS:

329 IAC 11-1-3 Reporting

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#)

Affected: [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 3. (a) Any permittee required to monitor under this article or by any permit issued pursuant to ~~under~~ this article shall maintain all records of all monitoring information and monitoring activities, including **the following**:

- (1) The date, exact place, and time of the sampling or measurements.
- (2) The **person or** persons who performed the sampling or measurements.
- (3) The **date or** dates analyses were performed.
- (4) The **person or** persons who performed the analyses.
- (5) The sampling methods used.**
- (6) All quality assurance/quality control documentation.**
- ~~(5) (7)~~ The analytical techniques or methods used. ~~and~~
- ~~(6) (8)~~ The results of ~~such~~ **the** measurements or analyses.

(b) All records of monitoring activities and results shall be retained by the permittee for ~~five (5)~~ **three (3)** years. The ~~five (5)~~ **three (3)** year period shall be extended:

- (1) automatically during the course of any unresolved litigation between the commissioner and a permittee; or
- (2) as required by the permit conditions.

(c) The owner, operator, or permittee of a solid waste processing facility shall record and retain at the facility in an operating record, or in an alternative location approved by the commissioner, any records required by this article.

(d) Information submitted to the department to meet a requirement of this article must meet the following standards:

(1) All drawings, plans, maps, and documentation must be properly titled and must include the following where applicable:

- (A) The date and author of each drawing, plan, or map.**
- (B) Documentation of the coordinate system of the drawing, plan, or map, including the following:**
 - (i) Measurement units.**
 - (ii) Datum.**
 - (iii) Identification of the coordinate system that was used, such as the Universal Transverse Mercator or the State Plane Coordinate System.**
- (C) A bar scale on each drawing, plan, or map.**
- (D) Elevations that correlate with United States Geological Survey mean sea level data.**
- (E) The facility name.**
- (F) The state regulatory identification number, such as a permit number or authorization number.**
- (G) The facility's United States Environmental Protection Agency identification number, if available.**
- (H) A north arrow.**
- (I) A map legend.**

(2) Submittals of sampling and monitoring results must include the following:

- (A) Results of laboratory analyses.**
- (B) Results of field measurements, including water elevations and well depths if applicable.**
- (C) Laboratory name.**
- (D) Date of the sampling or monitoring event.**

Affected: [IC 13-30-2](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 2.3. "Adjoining land" means the land that abuts or touches land upon which a solid waste processing facility is located. If the immediately adjoining land is owned by the permittee or the solid waste processing facility, the adjoining land is the first abutting land not owned by the permittee unless the first abutting land is greater than one-half (1/2) mile from the solid waste boundary. If there is a road or other right-of-way adjoining the property, then the land adjoining the road or other right-of-way is also adjoining.

Affected: [IC 13-19-3](#); [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 5.3. "CESQG hazardous waste" means hazardous waste that is:

(1) generated by a conditionally exempt small quantity generator; and

(2) regulated under 40 CFR 261.5, revised as of July 1, 2002, available from the Superintendent of Documents, U.S. Government Printing Office, Mail Stop: SSOP, Washington, D.C. 20402-9328.

(Solid Waste Management Board; [329 IAC 11-2-5.3](#))

SECTION 6. [329 IAC 11-2-5.5](#) IS ADDED TO READ AS FOLLOWS:

[329 IAC 11-2-5.5](#) "Closure" defined

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#)

Affected: [IC 13-30-2](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 5.5. "Closure" means those activities, described in [329 IAC 11-16-1](#), to be completed at the end of waste acceptance at a solid waste processing facility or units of a facility, including closure certification required by [329 IAC 11-16-1](#), but not including those activities required after certification.

SECTION 7. [329 IAC 11-2-5.7](#) IS ADDED TO READ AS FOLLOWS:

[329 IAC 11-2-5.7](#) "Closure certification" defined

Authority: [IC 13-14-8-7](#); [IC 13-15](#); [IC 13-19-3](#)

Affected: [IC 13-11-2-17](#); [IC 13-18](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 5.7. "Closure certification" means a written certification signed by the owner, operator, or permittee and an independent registered professional engineer submitted to the commissioner stating that closure for all units of the facility have been completed in accordance with the approved closure plan.

(Solid Waste Management Board; [329 IAC 11-2-5.7](#))

SECTION 8. [329 IAC 11-2-7.3](#) IS ADDED TO READ AS FOLLOWS:

[329 IAC 11-2-7.3](#) "Construction/demolition waste" defined

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#)

Affected: [IC 13-30-2](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 7.3. (a) "Construction/demolition waste" means solid waste resulting from the construction, remodeling, repair, or demolition of structures. Such wastes may include any of the following:

- (1) Scrap lumber.**
- (2) Bricks.**
- (3) Concrete.**
- (4) Stone.**
- (5) Glass.**
- (6) Wallboard.**
- (7) Roofing.**
- (8) Plumbing fixtures.**
- (9) Wiring.**
- (10) Nonasbestos insulation.**

(b) The term does not include the following types of regulated solid waste:

- (1) Fluorescent light fixtures.**
- (2) Appliances.**
- (3) Regulated asbestos-containing material as defined in 40 CFR 61.**
- (4) Any other waste resulting from construction, remodeling, repair, or demolition of a structure that, when placed in the landfill, would potentially:**
 - (A) result in contamination of ground water; or**
 - (B) present a risk to human health or the environment.**

(Solid Waste Management Board; [329 IAC 11-2-7.3](#))

SECTION 9. [329 IAC 11-2-7.4](#) IS ADDED TO READ AS FOLLOWS:

[329 IAC 11-2-7.4](#) "Container" defined

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#)

Affected: [IC 13-30-2](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 7.4. "Container" means a portable receptacle in which solid waste or recyclables are held for collection, storage, or transportation.

Affected: [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 9.9. "Electronic submission" means any submission of information to the department via electronic media. Such media may include the following:

- (1) Magnetic storage tape or disk.**
- (2) Compact disc read-only memory (CD-ROM).**
- (3) Electronic mail or attachments, or both.**
- (4) File transfer protocol (FTP).**
- (5) Hypertext transfer protocol (HTTP).**

Affected: [IC 13-11-2](#); [IC 13-18-1](#); [IC 13-18-20](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 12.2. "Generator knowledge" means the relevant, accurate, and reliable information available to or developed by the generator about a waste that allows a person to determine the correct regulatory status of that waste. This information may include, but is not limited to, the following categories of

information:

- (1) Information provided by the manufacturer or supplier of the materials used in the process.
- (2) Information provided in reference materials.
- (3) Information describing the process that generates the waste.
- (4) Information describing the materials used in the process that generates the waste.
- (5) Information describing principles of science, including chemistry and physics, applied to the raw materials and process used.
- (6) Information developed through prior testing of the waste.

Affected: [IC 13-30-2](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 14.8. "Hauler" means a person engaged in the transportation of solid waste by:

- (1) air;
- (2) rail;
- (3) roadway; or
- (4) water.

(Solid Waste Management Board; [329 IAC 11-2-14.8](#))

Affected: [IC 13-30-2](#); [IC 25-31](#); [IC 36-9-30](#)

Sec. 17. "Industrial process waste" means solid waste generated by manufacturing or industrial processes that is not a hazardous waste regulated under [329 IAC 3.1](#). Such waste may include, but is not limited to, waste resulting from any of the following manufacturing processes:

- (1) Electric power generation.
- (2) Fertilizer or agricultural chemicals production.
- (3) Food and related products or byproducts production.
- (4) Inorganic chemicals production.
- (5) Iron and steel manufacture or foundries.
- (6) Leather and leather products production.
- (7) Nonferrous metals manufacture or foundries.
- (8) Organic chemicals production.
- (9) Plastics and resins manufacture.
- (10) Pulp and paper industry.
- (11) Rubber and miscellaneous plastic products production.
- (12) Stone, glass, clay, and concrete products.
- (13) Textile manufacture.
- (14) Transportation equipment.
- (15) Oil and gas process **processing** and refinery wastes and disposed products: **refining, but not exploration and recovery.**
- (16) Painting, printing, and allied industries.
- (17) Contaminated, off-specification, or outdated wholesale products.
- (18) **Waste recycling and processing** activities, and process residues: **excluding operations in which processing consists solely of segregation of components of MSW and no chemical or physical alteration of the waste is performed.**
- (19) **Processing of ores and minerals as defined under 40 CFR 261.4(b)(7), but not the extraction and beneficiation of ores or minerals as defined under 40 CFR 261.4(b)(7).**

The term does not include mining operations waste or oil and gas recovery waste.

Sec. 18. "Infectious waste" means waste that epidemiologic evidence indicates is capable of transmitting a dangerous communicable disease (as defined in [410 IAC 1-3-5](#)). The term includes any of the following:

- (1) Pathological wastes, including tissue, organs, body parts, and blood or body fluids in liquid or semiliquid form that are removed during surgery, biopsy, or autopsy.
- (2) Biological cultures and associated biologicals.
- (3) Contaminated sharps.
- (4) Infectious agent stock and associated biologicals.
- (5) Blood and blood products in liquid or semiliquid form.
- (6) Laboratory animal carcasses, body parts, and bedding.
- (7) Wastes (as defined in [410 IAC 1-3-19](#)).

Sec. 19.5. (a) "Insignificant facility modification", as used in [329 IAC 11-9-6](#)(b), means any of the following:

- (1) Add **Adding** recycling activities and associated storage areas.
- (2) Add **Adding** or ~~modify~~ **modifying** outside storage of:
 - (A) white goods; or
 - (B) other scrap metal.
- (3) ~~Modify~~ **Modifying** facility traffic patterns.
- (4) ~~Modify~~ **Modifying** the size of a compactor.
- (5) Add **Adding** or ~~modify~~ **modifying** tipping floor entrance doors.
- (6) Add **Adding** or ~~modify~~ **modifying** the collection of household hazardous waste.
- (7) Add **Adding** or ~~modify~~ **modifying** a collection container.
- (8) **Adding or replacing weighing scales.**

(b) The term, as used in [329 IAC 11-9-6](#)(c), means any of the following:

- (1) ~~Accept~~ **Accepting** more than two hundred twenty (220) pounds of uncontainerized pollution control wastes in a shipment.
- (2) ~~Modify~~ **Modifying** the waste water handling or disposition procedures.
- (3) ~~Modify~~ **Modifying** the drainage around the facility, except for normal maintenance.
- (4) ~~Modify~~ **Modifying** the latest approved facility layout.
- (5) Any modification to the permitted facility that the commissioner determines will improve the operation of the facility without altering the approved solid waste processing facility permit.

Affected: [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 21.1. "Major modification of solid waste processing facilities" means any of the following:

- (1) Any increase in a permitted solid waste processing facility that would increase the facility's permitted capacity to process solid waste by more than ten percent (10%).
- (2) New bay loading area.
- (3) New loading tunnel.
- (4) Expansion of an existing loading bay or tunnel so that additional transfer trailers can be loaded simultaneously.
- (5) Expansion of the existing waste processing area by more than fifty percent (50%) either through:
 - (A) expansion of the area within an existing building; or
 - (B) the addition of a new building.
- (6) Addition of a major piece of equipment, such as a compactor, that increases the volume of waste being processed.

Sec. 21.6. (a) "Minor modification of solid waste processing facilities" means any modification in a permitted solid waste processing facility that would:

- (1) not increase the facility's permitted capacity to process solid waste by more than ten percent (10%); and
- (2) not include those items determined to be:
 - (A) insignificant modifications under section 19.5 of this rule; or
 - (B) major modifications under section 21.1 of this rule.

(b) A minor modification includes, but is not limited to, the reconstruction of a processing building that does not increase capacity as described in subsection (a)(1).

Sec. 21.7. (a) "Municipal solid waste" or "MSW" means any solid waste generated by community activities or the operation of residential or commercial establishments.

(b) The term includes the following:

- (1) Household or residential waste.

(2) Commercial solid waste.

(c) The term does not include the following:

- (1) Construction/demolition waste.**
- (2) Industrial process waste.**
- (3) Infectious waste.**
- (4) Coal combustion and flue gas desulfurization wastes excluded from regulation by [IC 13-19-3-3](#).**

Sec. 32.3. (a) "Regulated asbestos-containing material" or "RACM" means the following:

(1) Friable asbestos material defined at 40 CFR 61.141.

(2) Category I nonfriable asbestos-containing material, defined at 40 CFR 61.141, that has become friable.

(3) Category I nonfriable asbestos-containing material, defined at 40 CFR 61.141, that:

(A) will be; or

(B) has been;

subjected to sanding, grinding, cutting, or abrading.

(4) Category II nonfriable asbestos-containing material, defined at 40 CFR 61.141, that has:

(A) a high probability of becoming; or

(B) become;

crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition, renovation, or disposal operations.

(b) The term does not include regulated asbestos-containing materials that have not become solid waste.

(2) The waste:

(A) contains regulated amounts of PCBs; and

(B) is regulated under [329 IAC 4.1](#).

(3) The waste:

(A) is a solid waste; and

(B) can be processed under this article and disposed of under [329 IAC 10](#).

SECTION 69. [329 IAC 11-2-52](#) IS ADDED TO READ AS FOLLOWS:

[329 IAC 11-2-52](#) "Wetlands" defined

Authority: [IC 13-14-8-7](#); [IC 13-15-1-2](#); [IC 13-15-2-1](#); [IC 13-18-3-1](#); [IC 13-18-12-4](#)

Affected: [IC 13-11-2](#); [IC 13-12-3-1](#); [IC 13-18](#); [IC 13-30-2-1](#)

Sec. 52. "Wetlands" means those areas that are inundated or saturated by surface water or ground water at a frequency and duration to support and that, under normal circumstances, do support a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include the following:

(1) Swamps.

(2) Marshes.

(3) Bogs.

(4) Areas similar to areas specified in subdivision (1), (2), or (3).

(Solid Waste Management Board; [329 IAC 11-2-52](#))

SECTION 70. [329 IAC 11-3-1](#) IS AMENDED TO READ AS FOLLOWS:

[329 IAC 11-3-1](#) Exclusions; general

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#)

Affected: [IC 13-11-2-245](#); [IC 13-11-2-266](#); [IC 13-18-10](#); [IC 13-19-3-3](#); [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 1. The following solid waste management activities are not subject to the provisions of this article:

(1) Disposing of only uncontaminated:

(A) rocks;

(B) bricks;

(C) concrete;

(D) road demolition waste materials; or

(E) dirt.

(2) Land application activities regulated by [327 IAC 6.1](#) and [327 IAC 7](#).

(3) Confined feeding control activities regulated by [IC 13-18-10](#).

(4) Wastewater discharge activities regulated by [327 IAC 5](#).

(5) Processing of waste when the waste, other than waste tires, has been segregated from the general municipal solid waste **MSW** stream before arrival at a processing facility. To qualify for exclusion from this article, the facility must do the following:

(A) In the regular course of business, receive distinct and recognizable solid waste items that do not require substantial further processing. Substantial further processing includes any thermal or chemical treatment of the waste, as well as physical processing such as shredding, breaking, compacting, or mixing with other materials or waste beyond the processing needed to render the waste more amenable for transport.

(B) Return those items for reuse in manufacturing including any intermediate processing steps before being

sent for manufacturing.

(C) Not have more than ten percent (10%) of the solid waste that passes through the facility ultimately taken for final disposal. This is determined by the weight of material passing through the facility in a calendar quarter.

(6) Processing, ~~of solid waste~~, except for incineration, **of solid waste** that takes place at the generating facility.

(7) Processing and disposal of uncontaminated and untreated natural growth solid waste, including the following:

- (A) Tree limbs.
- (B) Stumps.
- (C) Leaves.
- (D) Grass clippings.

(8) Disposal of sawdust that is derived from processing untreated natural wood.

(9) The disposal of coal ash, transported by water, into an ash pond that has received a water pollution control facility construction permit under [329 IAC 3](#).

(10) The operation of surface impoundments; however, the final disposal of solid waste in such facilities at the end of their operation is subject to approval by the commissioner except as excluded under subdivisions (9) and (11).

(11) The disposal of coal ash at a site receiving a total of less than one hundred (100) cubic yards per year from generators who each produce less than one hundred (100) cubic yards per year.

(12) Uses and disposal of coal waste as exempted from regulation in [IC 13-19-3-3](#).

(13) The legitimate use of iron and steelmaking slags, including the use as a base for road building, but not including use for land reclamation except as allowed under subdivision (15).

(14) The legitimate use of foundry sand that has been demonstrated as suitable for restricted waste site Type III under the provisions of [329 IAC 10-9](#), including the use as a base for road building, but not including use for land reclamation except as allowed under subdivision (15).

(15) **Other uses of** solid waste management activities or legitimate uses of solid waste determined by the commissioner to not pose a threat to public health or the environment.

(16) Processing or storage of electronic waste or e-waste, which is any **solid waste** that is the following or has the following component:

- (A) A circuit board, including a shredded circuit board.
- (B) A diode.
- (C) A CRT.
- (D) A computer.
- (E) An electronic device.

E-waste does not include vehicles, as defined by [IC 13-11-2-245](#), or white goods, as defined by [IC 13-11-2-266](#). Electronic waste is regulated under [329 IAC 16](#) and must comply with all applicable standards and requirements under [329 IAC 16](#).

(17) The transfer of closed waste containers meeting the following criteria where the solid waste is not removed from the container:

(A) The container remains closed.

(B) Solid waste containing nonmunicipal solid waste or that is nonmunicipal solid waste is only stored in the container for ten (10) days or less.

Affected: [IC 13-15-7](#); [IC 13-30-2](#); [IC 13-30-6](#); [IC 36-9-30-35](#)

Sec. 1. (a) Unless excluded in [329 IAC 11-3](#), any person who constructs or operates a solid waste processing facility as defined under [329 IAC 11-2-43](#) shall have a solid waste processing facility permit under this article.

(b) The owner of the facility is responsible for applying for and obtaining a permit. The owner of the land upon which the facility is located also shall sign the application form acknowledging the land owner's responsibility in accordance with [329 IAC 11-11-4](#).

(e) **(b)** In the event that, after the permit application is submitted but prior to the issuance of the permit, there is any change that renders the information in the application incorrect, the applicant shall:

- (1) notify the commissioner of the change within fifteen (15) days; and
- (2) submit corrected information within a reasonable period of time.

~~(d) It is grounds to~~ **(c) The commissioner may deny a permit application, including a renewal permit, to any applicant if such or place additional conditions on a permit if the commissioner determines that one (1) or more of the following demonstrate the applicant's inability or unwillingness to process the solid waste under requirements of this article or a facility permit:**

- (1) The applicant has been convicted of a crime under [IC 13-30-6](#) or [IC 36-9-30-35](#).** ~~or if such~~
- (2) The commissioner, under [IC 13-15-7](#), has revoked the applicant's previous permit to operate under:**
 - (A) this article; or the previous articles;**
 - (B) [329 IAC 1.5](#), which was repealed in 1989; or**
 - (C) [329 IAC 2](#), which was repealed in 1996.** ~~has been revoked by the commissioner under [IC 13-15-7-1](#).~~
- (3) The applicant has a history of one (1) or more violations of the environmental protection acts.**
- (4) The applicant was, or is, the subject of one (1) or more administrative or judicial enforcement actions commenced under authority of [IC 13](#).**

[329 IAC 11-9-2](#) New permit application and major modification application

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#); [IC 13-19-4-10](#)

Affected: [IC 4-21.5-3-4](#); [IC 4-21.5-3-5](#); [IC 13-20-1](#); [IC 13-30-2](#); [IC 36-7-4](#); [IC 36-9-30](#)

Sec. 2. (a) A complete application for a solid waste processing facility permit must consist of the following information submitted to the commissioner in a format specified by the department on forms provided by the department:

- (1) The name and address of the applicant or applicants.
- (2) The name and address of the property owner or owners.
- (3) The name, address, and location of the facility.
- (4) The legal description as defined in [329 IAC 11-2-20](#) for the following:
 - (A) The area for which ownership will be established as required in subdivision (10).
 - (B) The area upon which the facility is located.
 - (C) Sufficient documentation must be provided to verify that the facility is located on property owned or leased by the permittee. Documentation must include a map of the legal description for these areas certified by a registered land surveyor.
- (5) Facility information, including the following:
 - (A) A description of the type of operation.
 - (B) The planned life of the facility in years.
 - (C) The expected volume of waste to be received in cubic yards per day and tons per day.
 - (D) The type of waste to be received.
- (6) Signatures and certification statements in compliance with section 3 of this rule.
- (7) Detailed plans and design specifications as required by **the following:**
 - (A) This section.**
 - (B) [329 IAC 11-12](#).**
 - (C) [329 IAC 11-17](#), and**
 - (D) [329 IAC 11-18](#).**
- (8) Closure plan under [329 IAC 11-16](#), and post-closure plan.
- (9) Closure financial responsibility. ~~under [329 IAC 11-16](#).~~ A description of the financial instrument that will be

used to achieve compliance with financial responsibility provisions ~~of~~ **and mechanisms as prescribed for solid waste land disposal facilities at [329 IAC 10-39](#)**. These documents need not be executed and delivered to the commissioner until after the:

(A) review of the technical application; and ~~until after the~~

(B) applicant receives notice of ~~such the~~ requirement from the commissioner. ~~in accordance with [329 IAC 11-11-1\(e\)\(1\)](#).~~

(10) Documents necessary to establish ownership or other tenancy of, including an option to purchase, the real estate upon which the facility to be permitted is located, including a certified copy of the deed to the subject real estate showing ownership in the person identified as the owner in the application, or the deed and evidence satisfactory to the commissioner that ownership will be transferred to the owner prior to operation of the facility.

(11) In order to assist the commissioner in identifying persons entitled to notice in accordance with [IC 4-21.5-3-4](#) and [IC 4-21.5-3-5](#), the name and address of all owners or last taxpayers of record of property located within one-half (1/2) mile of the site boundaries of a proposed solid waste processing facility.

(12) Certification verification from the zoning authority, or the county commissioners if there is no zoning authority, that proper zoning approvals have been obtained, and **one (1) or more of** the following documents, **as applicable**:

(A) A copy of the zoning requirements, if any, for solid waste facilities in the area where the facility is to be located.

~~(B) A copy of the improvement location permit or occupancy permit issued by the zoning authority having jurisdiction for the site if a solid waste facility is permitted by the zoning ordinance in the area where the facility is to be located.~~

~~(C) A copy of the amendment or amendments to the zone maps incorporated by reference into the zoning ordinance under [IC 36-7-4-602\(c\)](#) if a change in the zone maps is required for the area where the facility is to be located.~~

~~(D) A copy of the amendment or amendments to the zoning ordinance adopted under [IC 36-7-4-602](#) if such amendment is required for the area where the facility is to be located.~~

~~(E) A copy of the variance, special exception, special use, contingent use, or conditional use approved under [IC 36-7-4-918.1](#) through [IC 36-7-4-921](#) if such approval is required for the area where the facility is to be located.~~

~~(F) (B) The status of any appeals of any zoning determination as described in clauses (B) through (E) and, if none pending, the date by which ~~such the~~ appeal must be initiated.~~

(13) The names and addresses of members of the board of county commissioners of a county that is affected by the permit application.

(14) The names and addresses of the mayors of any cities that are affected by the permit application.

(15) The names and addresses of the presidents of town councils of any towns that are affected by the permit application.

(b) Two (2) paper copies and an electronic copy of the completed application and all supporting documentation must be submitted to the commissioner ~~in triplicate~~, **as follows**:

(1) Sent by registered ~~or~~ **mail**, certified mail, **or private carrier** or **delivered** in person. ~~For all items larger than eleven (11) inches by seventeen (17) inches, one (1) of the three (3) required copies must be submitted on reproducible mylar plastic.~~

(2) The electronic submission must be in the type and format as prescribed by the commissioner. The commissioner may make a determination that only an electronic copy is needed.

(3) Plans and documentation accompanying the application shall be submitted as required by this section.

(c) Confidentiality of information submitted in the permit application may be requested in accordance with [329 IAC 6.1](#).

(d) All corporations must submit a certificate of existence signed by the secretary of state.

(e) Fees must be submitted with the application in accordance with [IC 13-20-21](#).

(f) An application for a solid waste processing facility permit must be accompanied by the plans or documents specified in this rule. Design drawings and specifications must be certified by a registered professional engineer. Design drawings must be properly titled.

(g) The following general documentation is required:

(1) A United States Geological Survey (USGS) topographic quadrangle map or maps, seven and one-half (7 1/2) minute, or equivalent, to include all areas within two (2) miles of the proposed facility with property boundaries and the proposed processing facility clearly delineated.

(2) Documentation of the base flood elevation within one-fourth (1/4) mile of the proposed facility. The following documentation will be accepted:

(A) A letter from the Indiana department of natural resources.

(B) A national flood insurance program map.

(h) Applications must include a plot plan or plans of the facility, including the following:

(1) Access control measures such as fences, gates, or natural barriers.

~~(2) A method of screening.~~

(2) Any building where waste will be stored or processed.

(3) The general layout of the equipment.

(4) The traffic pattern.

(5) Road access.

(6) Surface water drainage.

(7) Culverts, drainage tiles, and legal drains.

(8) Gas and electric easements, power lines, and sewers.

(9) Floodplains, floodways, wetlands, water courses, surface water features, and potable drinking water wells.

(10) Roads and buildings, on and within one-half (1/2) mile of the facility, must be shown.

The plot plans and drawings required by this section must be drawn to scale. A bar scale must be shown on the plans to indicate the scale if size changes occur.

(i) Applications must include drawings of all buildings and all structures used for the storage, processing, loading, and unloading of solid waste. Drawings must include **the following**:

(1) The type of construction, construction materials, layout, and dimensions for the storage, processing, loading, and unloading areas. ~~Drawings must also include~~

(2) Sanitary facilities, plumbing, sewer connections, and utilities.

All liquid waste streams generated **or accepted** by the facility must be shown on these drawings.

(j) Applications must include a narrative describing the proposed operation, including the following:

(1) The anticipated type, quantity, and source of solid waste to be processed at the facility, including population and the area to be served. Include any analyses already completed on the waste and describe the sampling and analysis methods and equipment used. Describe any proposed sampling of waste streams, including analytical methods to be used.

(2) A detailed description of all processes used in the handling, sorting, processing, and transportation of the waste, including a waste flow diagram for all waste streams and residues. Flow rates coinciding with the waste flow diagram must be specified.

(3) A description of the proposed testing, treatment, and disposition of all waste resulting from the facility. Proposed testing must be adequate to provide for proper treatment and disposal of wastes.

(4) Specifications for the base of all areas where wastes will be stored or handled. **The surface must be made of materials such as concrete or asphalt. Storage areas must be equipped with spill prevention mechanisms such as curbs and aprons, or the waste must be kept in a leak proof container. Liquid waste storage facilities must be equipped with secondary containment.**

(5) Names and locations of solid waste land disposal facilities anticipated to receive waste and residue from the facility.

(6) A contingency **action** plan ~~outlining the method or methods of waste disposal to be implemented if the facility is unable to operate or process solid waste in accordance with the approved operating plan for more than twenty-four (24) continuous hours.~~ **including** design capacity of waste storage areas and normal percent of capacity used during routine operations. Specify the maximum inventory of wastes in storage or treatment that will occur at any time during the life of the facility.

(7) Procedures for:

(A) controlling:

(i) dust;

(ii) noise;

(iii) odors; fire, explosions;

(iv) vectors; and

- (v) litter;
 - (B) **waste screening**; and
 - (C) handling of bulky waste or other materials unsuitable for the proposed process.
- (8) Daily cleanup procedures for solid waste:
- (A) storage;
 - (B) processing;
 - (C) loading; and
 - (D) unloading;
- areas.
- (9) Sanitary toilet facilities for employees.
- (10) Proposed operating hours for the facility.
- (11) An emergency response plan.**

Authority: [IC 13-14-8-7](#); [IC 13-15-2-1](#); [IC 13-19-3-1](#)

Affected: [IC 13-11-2-254](#); [IC 13-30-6-7](#)

Sec. 1. (a) Sections 2 through 9 of this rule apply to all solid waste processing facilities.

(b) In addition to subsection (a), the following sections of this rule apply to all transfer stations located in Indiana or that transfer solid waste from Indiana:

- (1) Sections 10 through 13 of this rule.**
- (2) Section 14(a) of this rule.**
- (3) Sections 15 through 17 of this rule.**

(c) In addition to subsections (a) and (b), transfer stations in Indiana must adhere to section 14(b) of this rule.

Affected: [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 2. Access to all solid waste processing facilities must be:

- (1) allowed only when operating personnel are on duty; and**
- (2) controlled by the use of:**
 - (A) gates;**
 - (B) fences; and**
 - (C) other appropriate means.**

Affected: [IC 13-30-2](#); [IC 36-9-30](#)

Sec. 4. (a) All solid waste processing facilities must have a sign at least sixteen (16) square feet in area identifying the following:

- (1) The name of the facility.**
- (2) The type of operation.**
- (3) The facility's IDEM permit number.**
- (4) The phone number for the person to be contacted in the event of an emergency.**

(b) For facilities that grant access to the general public, for the use of the facility, the sign also must:

- (1) be posted at each point of vehicular access from a public road;**
- (2) identify the time the facility is open to accept waste; and**
- (3) identify the schedule of fees.**

(c) For facilities that do not grant access to the general public:

- (1) the sign must be posted at the door of the facility building; or**
- (2) upon request by the applicant, the commissioner may determine and approve appropriate alternative sign location, size, and information based on public access.**

Affected: [IC 13-11-2](#); [IC 13-19-3](#); [IC 36-9-30](#)

Sec. 5. Solid waste processing facilities may accept all solid waste regulated under this article except the following:

- (1) Hazardous waste that is regulated by [329 IAC 3.1](#).
- (2) Solid waste that is prohibited by the facility permit.

Sec. 6. (a) A solid waste processing facility must have the following:

(1) An enclosed building, with solid walls and a lockable door except as specified in subsection (h). The door must be closed when the facility is not in operation and the solid waste is not stored in the facility building.

(2) A hard surface floor, such as concrete or asphalt, equipped with floor drains or a liquid removal system.

(3) One (1) of the following:

(A) Waste storage areas equipped with spill prevention mechanisms, such as curbs or aprons.

(B) Waste is stored in leak-proof containers.

(4) Liquid waste storage equipped with secondary containment structure.

(5) A storm water pollution prevention plan implemented as required by the rules of the water pollution control board at [327 IAC 15](#).

(b) Solid waste must be confined to the designated storage, processing, loading, and unloading areas of the processing facility. Solid waste processing that includes MSW must occur only in the enclosed building required in subsection (a)(1). The processing facility and adjacent areas must be maintained clean and litter free.

(c) Solid waste may not be stored overnight at the processing facility except in:

(1) permitted storage areas; or

(2) covered transporting units.

(d) Residues from solid waste processing facilities and incinerators must be disposed of in accordance with [329 IAC 10](#).

(e) Salvaging, if undertaken, must not interfere with the facility operation or create:

(1) unsightliness;

(2) a nuisance; or

(3) a health hazard.

(f) At a minimum, all salvage materials must be stored in buildings or transportable containers while awaiting removal from the facility. No alternative methods of storing salvage materials may be used without obtaining prior written approval from the commissioner. Approval may be granted at the request of the permittee, if the permittee can demonstrate that the alternative method will provide a comparable level of environmental protection.

(g) An alternative design to subsection (a)(1) may be approved if it is demonstrated to the satisfaction of the commissioner that it will provide at least equivalent protection to public health and the environment.

(h) Any solid waste processing facility that:

(1) has a valid permit and is operating as of the effective date of this section; and

(2) does not process in a building;

is not required to have a building as specified in subsection (a)(1).

Sec. 7. (a) Vectors, dust, odors, spills, and noise must be controlled at all times such that there is no nuisance or health hazard at the facility.

(b) Equipment must be provided to abate or control fires. Open burning of solid waste is prohibited.

(c) Telephone or radio communication must be provided on-site.

(d) A first aid kit must be available on-site.

(e) Scavenging is prohibited.

(f) The facility must have a written emergency response plan.

(g) A spill prevention kit must be available on site.

Sec. 9. (a) The following must be furnished upon request and made available during normal operating hours for inspection by any officer, employee, or representative of the commissioner:

(1) All solid waste processing facility records and reports required by this rule, [329 IAC 11-14](#), and [329 IAC 11-15](#).

(2) All test results from testing of residues generated by the facility.

(b) Owners or operators of solid waste processing facilities shall maintain the records and reports required in subsection (a)(2) until certification of post-closure is deemed acceptable.

Affected: [IC 13-11-2-254](#); [IC 13-20-21](#); [IC 13-30-6-7](#)

Sec. 11. (a) The commissioner or any designated agent of the department, including a third party contractor, upon presentation of proper credentials shall have authority to:

- (1) enter onto transfer station property during the normal business hours of the transfer station; and
- (2) inspect the facility for purposes of assessing compliance with:
 - (A) this rule;
 - (B) [329 IAC 11-7](#); and
 - (C) [329 IAC 11-14](#) through [329 IAC 11-15](#).

(b) The department shall recover costs associated with the inspection of any transfer station. The associated costs must include inspection and travel costs. Recovery of costs for inspections of transfer stations located in this state must be covered by the annual operation fee required in [IC 13-20-21](#). Cost recovery for any other transfer station must occur through an annual billing for the actual costs incurred by the department for inspections of that transfer station conducted during the previous calendar year, but must not exceed the dollar amount of the annual operation fee set forth in [IC 13-20-21](#) that is required to be paid by transfer stations located in Indiana, plus the amount by which actual travel costs incurred in inspecting the transfer station exceed the highest travel cost incurred by the department during the calendar year for any single inspection of a transfer station located in Indiana.

(c) As used in this rule, "travel cost" includes any reimbursement for the following:

- (1) Mileage.
- (2) Fares paid for air or ground transportation.
- (3) Rental car fees.
- (4) Where reasonably required, meals and lodging, including any applicable taxes or gratuities.

(d) This section does not apply to a transfer station located outside Indiana if the:

- (1) transfer station is located in a jurisdiction that has a transfer station inspection program similar to that created by this rule; and
- (2) department has made a determination that the standards of the inspection program, as constituted and as applied, are substantially equivalent to the standards set forth in this rule.

(e) The department shall:

- (1) maintain a list of jurisdictions qualifying for the exception in subsection (d);
- (2) publish that list from time to time in the Indiana Register; and
- (3) provide a copy of the list to any party upon request and upon payment of the cost of providing a copy of the list.

(f) If the owner or operator of a transfer station located outside Indiana believes that the jurisdiction in which the transfer station is located should qualify for the exception in subsection (d), but the jurisdiction is not on the list maintained by the department under subsection (e), the operator may request that the department include the jurisdiction on the list. The department shall then:

- (1) promptly make a determination whether the jurisdiction qualifies for the exception in subsection (d);
- (2) either include or exclude the jurisdiction on the list in accordance with its determination; and
- (3) inform the owner or operator of its determination.

Sec. 12. All transfer stations, other than those excluded under [329 IAC 11-2-47](#), that haul or ship MSW to an Indiana solid waste facility must hold:

- (1) a valid permit under this article if located in Indiana; or
- (2) a valid permit or applicable authorization issued by the appropriate governmental agency or agencies, if any, in other states, territories, or nations.

Sec. 13. (a) Except as provided in subsection (b), a transfer station may accept all solid waste regulated by this article including the following:

- (1) MSW.
- (2) Construction/demolition waste.
- (3) CESQG hazardous waste.
- (4) Industrial process waste.
- (5) Pollution control waste in nonleaking containers.
- (6) Any solid waste authorized by the facility permit.

(b) A transfer station may not accept any of the following:

- (1) Solid waste that is prohibited by the facility permit.
- (2) Liquid waste, as defined in [329 IAC 10-2-106](#).
- (3) Hazardous waste, except CESQG hazardous waste.
- (4) Infectious waste, except as provided in the rules of the state department of health at [410 IAC 1-3-26](#).
- (5) Whole waste tires, except as provided in [329 IAC 11-21-11](#).
- (6) Lead-acid batteries prohibited by [IC 13-20-16](#).
- (7) Vegetative matter prohibited by [IC 13-20-9](#).
- (8) Waste or material containing PCB prohibited by [329 IAC 4.1](#).
- (9) RACM that is not managed in accordance with the rules of the air pollution control board at [326 IAC 14-10](#) and [329 IAC 10-8.2-4](#).
- (10) Any appliance or motor vehicle air conditioner containing a refrigerant or other class I or class II substance that has not been removed as required by 40 CFR 82.156, revised as of July 1, 2002. 40 CFR 82.156 is available from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 371954, Pittsburgh, Pennsylvania 15250-7954, (202) 783-3238.
- (11) Biosolid, as defined in the rules of the water pollution control board at [327 IAC 6.1-2-7](#), that is not managed in accordance with the rules of the water pollution control board at [327 IAC 6.1-1-7](#).
- (12) Wastewater, as defined in the rules of the water pollution control board at [327 IAC 7.1-2-41](#), that is not managed in accordance with the rules of the water pollution control board at [327 IAC 7.1-7-1](#).
- (13) More than two hundred twenty (220) pounds of pollution control waste in a shipment that is not enclosed in nonleaking containers.

(c) Incoming MSW must be monitored daily by transfer station employees. The monitoring must be conducted by personnel who are able to recognize the visual indications of solid waste as listed in subsection (b) that may be present in the MSW observed.

(d) The monitoring may be accomplished by either of the following methods:

- (1) Conducting, on a daily basis, a minimum of two (2) random inspections that must consist of a visual observation of all off-loaded MSW prior to processing.
- (2) An overview of the MSW on an ongoing basis by facility personnel.

(e) Random inspections conducted under subsection (d)(1) must be recorded in a format established by the department.

(f) A facility conducting overview inspections of the incoming MSW under subsection (d)(2) must only record events in which solid waste as listed in subsection (b) is found. Records of such events must be in a format established by the department, and the waste must be managed in accordance with the applicable laws.

Sec. 14. (a) All transfer stations must be operated in a manner that minimizes the inclusion of liquids and does not allow vectors into the permitted waste stored, processed, and shipped from the transfer station. Such management practices include, but are not limited to, the following:

(1) All facility floors and the loading bay tunnel must be maintained so as to prevent standing water within the facility structure. All drainage and liquids originating from:

- (A) storage, handling, and processing MSW;
- (B) cleaning floors; or
- (C) washout water from a MSW vehicle;

must be properly directed to a sanitary sewer, a holding tank constructed and operated in accordance with any applicable local approvals, or the equivalent of a sanitary sewer or holding tank.

(2) The facility tipping floor and loading bay tunnel must be cleaned daily while the facility is in operation by wash-down or other alternative method approved by the commissioner to prevent buildup of residue or waste, odors, and other nuisance conditions with all residuals being removed and disposed of properly. Litter must be collected daily or as needed to keep facility clean.

(3) Any MSW that is stored overnight at the facility, except nonputrescible waste that has been segregated for recycling, must be removed from the site the following operating day except for holidays and weekends. Any MSW stored overnight must be stored in a manner to:

- (A) promote vector control; and
- (B) prevent odors and other nuisance conditions.

(b) The following operating conditions apply to all Indiana transfer stations:

(1) Transfer stations that operate by discharging MSW directly from one (1) vehicle into a below the floor opening must have truck wheel curbs or an equivalent backup safety device or procedure.

(2) Solid waste that has been segregated and designated as waste to be recycled must be:

- (A) stored in clearly identified containers or permitted areas; and
- (B) maintained in a safe, sanitary, and orderly manner.

A record of the type and quantity of MSW shipped off site for reuse or recycling must be maintained.

(3) Wastewater liquids collected under subsection (a)(1) must be emptied as necessary and properly disposed of whenever necessary to prevent overflow of the holding tank.

(4) An up-to-date copy of the plans and specifications approved by the department in granting the permit must be maintained on site.

Sec. 15. The following conditions apply to all Indiana transfer stations that hold a valid permit under this article and are authorized to accept segregated infectious waste:

(1) Infectious waste must be stored in a manner that:

(A) preserves the integrity of containers; and

(B) is not conducive to rapid microbial growth and putrefaction.

The maximum duration for storage or containment of infectious waste must be limited to seven (7) days unless the department grants prior written approval for a longer period based on specific circumstances.

(2) Storage and containment of infectious waste must be in:

(A) a secure, vector free, and dry area separate from other solid waste at the facility; and

(B) such a manner and location that eliminates the possibility of exposure to:

(i) the environment;

(ii) facility personnel; and

(iii) the public.

Infectious waste must not be mixed with, or come into contact with, other solid waste. In addition, storage areas must protect infectious waste from weather, be ventilated to the outdoors, be accessible only to authorized persons, and be marked with prominent warning signs. The warning signs must include the nationally recognized biohazard symbol and be easily read from a distance of twenty-five (25) feet. Outside storage areas containing infectious waste must be locked to prevent unauthorized access.

(3) Infectious waste received by the facility must be packaged and labeled in accordance with the rules of the state department of health at [410 IAC 1-3](#), and the packaging and labeling must be maintained by the facility.

(4) Containers used to contain other containers of infectious waste must be marked with prominent warning signs or conspicuously labeled with the biohazard symbol or the word "INFECTIOUS".

(5) In addition to the requirements of this section, infectious waste must be labeled and packaged in accordance with applicable United States Department of Transportation regulations.

(6) Infectious waste must be transported and delivered to a facility that:

(A) holds a valid permit under this article and is authorized by the department in writing to accept and treat the waste; or

(B) is permitted by the appropriate governmental agency or agencies if located in another state, territory, or nation.

(7) Reusable containers for infectious waste must be thoroughly washed and decontaminated each time they are emptied, unless the surfaces of the containers have been completely protected from contamination by using disposable liners, bags, or other devices that are removed with the infectious waste. Reusable containers used for the storage of infectious waste must be disinfected before they are used for the storage or containment of any other solid waste or for other purposes.

Sec. 16. (a) [IC 13-20-14-9.5](#) requires the removal of whole waste tires from MSW, as defined at [329 IAC 10-2-115](#), that is transferred at a transfer station, except as provided for in this section. The incidental transfer of small amounts of whole waste tires at a transfer station is allowed if the owner, operator, or permittee of that transfer station complies with one (1) of the following options:

(1) The numeric standard described in subsection (b).

(2) A procedure that meets the criteria in subsection (c).

(b) The numeric standard for incidental transfer of whole waste tires is not more than one (1) visible whole waste tire for each two hundred fifty (250) tons of MSW, as defined at [329 IAC 10-2-115](#), or not more than two (2) tires per day for transfer stations that transfer less than two hundred fifty (250) tons of waste per day.

(c) In lieu of complying with the numeric standard in subsection (b), an owner, operator, or permittee of a transfer station must develop and follow a written procedure. This procedure must:

(1) be kept at the transfer station;

(2) be designed to minimize the transfer of whole waste tires by ensuring that those tires that do not

- meet the definition of incidental transfer at [329 IAC 11-2-15.1](#) are removed from the MSW;
- (3) designate by position and describe the duties of the person who is responsible for minimizing transfer of whole waste tires;
 - (4) provide clear instructions to transfer station employees who handle waste tires and haulers for handling whole waste tires;
 - (5) contain a system for:
 - (A) identifying haulers who deliver whole waste tires to the transfer station; and
 - (B) notifying those haulers that the disposal of whole waste tires is prohibited;
 - (6) provide for proper storage and disposal or recycling of tires removed from MSW; and
 - (7) document reduction in the numbers of whole waste tires incidentally transferred at that transfer station.

Sec. 17. (a) Inspection records must be maintained on site and available for review by the commissioner or any designated agent of the department for a period of one (1) year from the date of the inspection or event.

(b) Transfer stations must submit to the department by January 31 of each year an annual report, in a format established by the department, that identifies the following:

- (1) Any inspection that detected any solid waste as listed in section 13(b) of this rule at the facility.
- (2) The disposition of these wastes.

(c) The report must include all of the following:

- (1) The name of the facility.
- (2) The address of the facility.
- (3) The permit number of the facility.
- (4) The inspection date.
- (5) The name of the person conducting each inspection.
- (6) The type of waste found and how it was handled, including final disposition.
- (7) The name and address of the generator of waste found during an inspection if known.

Sec. 3. (a) The permittee shall notify the department when the facility closes. The final closure of the facility shall be initiated within seventy-two (72) hours after receiving the final volume of waste. The following closure activities shall be performed at the facility during closure:

- (1) Notification of all affected parties that the facility is closed. A sign that includes the name and address of the nearest landfill or other processing facility accepting solid waste must be posted.
- (2) Removal of all solid waste stored at the facility. The solid waste must be properly disposed of at a permitted facility. All storage containers and recyclable waste must be removed.
- (3) Cleanup of tipping floor and solid waste storage areas so the facility is free of solid waste and contaminated liquids.
- (4) Removal of wastewater holding tanks, if applicable. The wastewater must be pumped out and properly disposed of in accordance with local, state, and federal laws.
- (5) Cleanup of septic tank, if applicable.

(6) Cleanup of sediment pond, if applicable. Dredging of sediments may be required.

(b) Solid waste that contains any significant putrescible component, or any other waste that may create pollution, shall be removed from the facility within two (2) days of initiation of the facility final closure. All other closure activities shall be completed within ninety (90) days of initiation of the closure activities.

(c) The permittee shall submit to the department, within thirty (30) days of completion of closure, a closure certification signed by the permittee that specifically identifies the closed facility and documents that the closure was performed in accordance with the closure plan. The certification shall include the facility contact person's name, address, and telephone number during the post-closure period.

(d) The closure will be deemed adequate unless, within ninety (90) days of receipt of the certification required in subsection (c), the department issues a request for additional information for closure, including the following:

- (1) Additional action that needs to be taken.**
- (2) The time table for the necessary additional action.**

(e) The permittee shall perform post-closure for one (1) year at the facility following completion of closure activities. The following duties shall be implemented after closure of the facility has been certified and deemed adequate by the department:

- (1) Minimizing the need for further maintenance.**
- (2) Controlling the post-closure escape of contaminants to:**
 - (A) the ground surface;**
 - (B) surface waters;**
 - (C) ground waters; or**
 - (D) the atmosphere.**
- (3) At a minimum, remaining in compliance with all applicable requirements of a permit issued under this article.**
- (4) Inspecting the facility semiannually and submitting a written inspection report on the condition of the facility to be submitted to the department within thirty (30) days of the inspection.**
- (5) Maintaining the facility's surface water run-off controls as applicable.**
- (6) Maintaining access control.**
- (7) Removing any solid waste that may be illegally dumped at the closed facility.**

(f) The duties described in subsection (e) may be modified by the commissioner based on the use of the property during the post-closure period.

(g) Within thirty (30) days of completion of the post-closure, the permittee shall submit a certification statement signed by the permittee that the post-closure requirements have been met. The post-closure certification will be deemed adequate unless, within ninety (90) days of receipt of the certification, the department issues a request for additional information for post-closure, including action necessary to correct the deficiency.

(h) Subsequent to the completion of post-closure, the:

- (1) owner or operator of a closed facility; or**
- (2) owner of the real estate upon which a closed facility is located;**

shall be responsible for immediately correcting and controlling any nuisance occurring at the facility.
